# STANDARDIZATION DIRECTORY

DTIC QUALITY INSPECTED 2

(FSC Class and Area Assignments)

19970218 015

U.S. GOVERNMENT PRINTING OFFICE: 1997

ADP/ASD

SECRET

## FOREWORD

The Standardization Directory (SD-1) provides the following information:

- A list of all DoD Standardization Management Activities (SMA), which includes:
  - Addresses, telephone and fax numbers, e-mail addresses, and points of contact.
  - The SMA's areas of document interest by Federal Supply Class (FSC) or Standardization Area.
  - The SMA's item reduction Study interest by FSC.
  - SD-1 Code Assignment.
- A list of civilian agency standardization offices, which includes:
  - Addresses, telephone and fax numbers, e-mail addresses, and points of contact.
  - The civil agency's areas of interest by FSC or Standardization Area.
  - SD-1 Code Assignment.
- A list of non-government standards bodies that interface with the DoD, which includes:
  - Addresses, telephone and fax numbers, e-mail addresses, and points of contact.
  - Conditions under which copies of standards are provided to the DoD for coordination.
- Assignments of Lead Standardization Activities and Participating Activities by FSC and Standardization Area.
- A list of Federal Supply Groups (FSG), FSCs, and Standardization Areas, and definitions for the Areas.
- A list of key acquisition standardization documents and their cognizant OSD technical review office.
- A list of prohibited references in standardization documents.

Changes to this Directory are marked with an asterisk to indicate changes from the last issue. Previous editions of this Directory are hereby superseded.

This Directory is published three times a year--in January, May, and September. Each standardization activity shall send its changes to the appropriate office listed below by November 10, March 10, and July 10, respectively. The offices in column 2 must submit changes to the DODSSP, 700 Robbins Avenue, Building 4D, Attn: SD-1 Administrator, Philadelphia, PA 19111-5094 by the end of November, March, and July.

Standardization Activity

Send changes to below:

## GENERAL DEFINITIONS

Departmental Standardization Office (DepSO). A top level office in each Military Department or Defense Agency responsible for managing the Defense Standardization Program and ensuring that its Lead Standardization Activities and Standardization Management Activities properly implement the policies, procedures, and goals of the Defense Standardization Program.

FSG, FSC, and Area Codes. Federal Supply Group (FSG), Federal Supply Class (FSC), and Standardization Area codes. For a more complete description of FSGs and FSCs, see Cataloging Handbook H2-1, Federal Supply Classification, Part 1, Groups and Classes.

Item Reduction Activity. An activity responsible for conducting item reduction studies in accordance with DoD 4120.3-M.

Lead Standardization Activity (LSA). The activity responsible for managing DoD standardization efforts in an Area or Federal Supply Class.

Non-Government Standards Body. A private sector association, organization, or technical society that plans, develops, establishes, maintains, or coordinates private sector standards, specifications, and other types of standardization documents.

Participating Activity. The activity designated by its DepSO to represent the department in interdepartmental standardization efforts.

Standardization Area. A standardization category that encompasses a broad engineering discipline, practice, and manufacturing technology and is not susceptible to categorizing in the Federal Supply Classification system.

Standardization Management Activity (SMA). A generic term to describe any organization listed in the SD-1 that functions as a Lead Standardization Activity, Preparing Activity, Participating Activity, Military Coordinating Activity, Custodian, Review Activity, Adopting Activity, or Item Reduction Activity.

## STANDARDIZATION AREA CODES AND DESCRIPTIONS

Established Standardization Areas are listed below. Area descriptions are provided as guidance in categorizing documents not susceptible to categorizing in the Federal Supply Classification system.

AREA	TITLE (AREA Description Below Title)
ATTS	<p>Automatic Test Technology Standards</p> <p>This AREA establishes standard methods, procedures, techniques and design criteria for providing automatic test capability in defense systems and equipments. It excludes automatic test equipment and accessories that are covered by FSC 6625.</p>
AVCS	<p>Avionics</p> <p>This AREA applies to all requirements pertaining to the economy of avionics operations and resources, including but not limited to process, measurement, product, interchange-ability, compatibility, commonality, interoperability, and service/allied operations. It covers all resources for electronic, electrooptic, and electromechanical systems and subsystems (hardware and software) installed in or attached to an aircraft. It includes systems that interact with the crew and other aircraft systems in the areas of: communications (c) controls and displays (ID), navigation (N), reconnaissance (RE), systems integration (SI) and target acquisition/strike (TA/S) and in the technology and functional areas of weapons delivery, identification, instrumentation, electronic warfare, flight controls, engine controls, power distribution, support equipment, sensors, transducers, antennas, processing elements, system interfaces, networks, buses, and associated software.</p>
CDNC	<p>Computer Aided Design Numerical Control</p> <p>This AREA relates to all engineering design that may be enhanced with the aid of computer techniques as well as to all automated production techniques involving control of machine tools and manufacturing processes, whether directly by a computer or by means of computer-generated outputs and controls.</p>
CMAN	<p>Configuration Management</p> <p>This AREA relates to: (1) configuration engineering change control procedures, deviations and waivers for military systems, equipments and computer program software and firmware; (2) configuration item identification documentation; (3) configuration item physical and functional audits; (4) configuration item status accounting; and (5) configuration management plans.</p>
CMPS	<p>Composites Technology</p> <p>This AREA encompasses standardization documents for materials and processing (M&amp;P) technology that are pertinent to composites manufacturing and applications. This includes the M&amp;P technology of fiber reinforcements and matrices used in composites manufacturing, the design and fabrication of composites, and standard test methods for determining the properties of composites and their constituent materials. This AREA includes the M&amp;P technology of primary classes of composites materials including: polymer matrix composites (PMC), metal matrix composites (MMC), and ceramic matrix composites (CMC).</p>

<u>AREA</u>	<u>TITLE (AREA Description Below Title)</u>
DCPS	<p>Data Communications Protocol Standards</p> <p>This AREA establishes DOD protocol standards and reference protocol architectures necessary to support intranetwork and internetwork host-to-host data communications utilizing digital communications techniques. The DCPS AREA involves standardization of internetwork, peer and interlayer management protocols, including those that deal with end-to-end (host-to-host) communications across a network or a concatenated set of networks. The standardization of lower layer protocols, those that deal with the physical, data link, and network functions, do not fall within the domain of the DCPS AREA. However, the DCPS AREA actively coordinates with those standardization activities developing and coordinating those lower layer protocols to ensure that the interfaces allow interoperability.</p>
DRPR	<p>Drawing Practices</p> <p>This AREA relates to engineering practices to define, record and communicate concepts and design and production requirements in a concise, graphic form with standard symbols, abbreviations and text on drawing and associated lists.</p>
EDRS	<p>DOD Engineering Data Reproduction Systems</p> <p>This AREA covers reproduction systems required for recording, reproducing, storing, retrieving, and distributing engineering documents and related information by electronic, optical, or microform methods, or combination thereof.</p>
EGDS	<p>Engineering Data Systems</p> <p>This AREA relates to the automated processing of engineering data documentation used in support of research and development, design and engineering, procurement and supply and maintenance of defense materiel.</p>
EMCS	<p>Electromagnetic Compatibility</p> <p>This AREA covers requirements and procedures to achieve electromagnetic compatibility, within all frequency ranges of platforms, facilities, electrical and electronic systems/equipment, circuits and components. Included are: (1) standards for prediction, measurement and validation for electromagnetic compatibility; (2) standards for techniques and procedures relating to grounding, bonding and shielding; (3) standards for prevention and control of electromagnetic radiation to personnel and equipment (including hazardous materiel and substances); and (4) standards relating to the prevention of deleterious electromagnetic effects resulting from nuclear detonations (e.g., EMI and EMP).</p>
ENVR	<p>Environmental Requirements and Related Test Methods</p> <p>This AREA encompasses environmental definitions, environmental design criteria (both natural and induced) and related test and evaluation methods. The electromagnetic environment is excluded as it is covered under EMCS.</p>
FACR	<p>Facilities Engineering and Design Requirements</p> <p>This AREA covers standard general facilities engineering and design criteria, practices, guidelines, and related to requirements.</p>

<u>AREA</u>	<u>TITLE (AREA Description Below Title)</u>
FACR	<p>(Continued)</p> <p>Specifications and Standards related to specific building products and materials are not covered by this area but in the appropriate FSG/FSC.</p>
FORG	<p>Forgings</p> <p>This AREA relates to metal forging processes, procedures and technology.</p>
GDRQ	<p>General Design Requirements</p> <p>This AREA covers design requirements and interface characteristics for a range of equipment types. Documents of this type that fall into other established areas are excluded.</p>
HFAC	<p>Human Factors</p> <p>This AREA encompasses human factors engineering which incorporates human characteristics and considerations into design of military systems, equipment, and facilities. The HFAC AREA includes tasking requirements and technical data for analysis, design (including initial design and analysis of user tasks), test, and evaluation during acquisition. It also includes design criteria, expressed as requirements and guidelines, as they apply to those who will operate, control, maintain, supply or transport the materiel. The AREA also encompasses environmental considerations including limits for maximum exposure, human performance, habitability, and vulnerability. Manpower, personnel, and training (MPT) considerations apply only to the degree that they affect the human performance aspects of design.</p>
ILSS	<p>Integrated Logistic Support Standards</p> <p>This AREA encompasses standards, procedures, methods, and techniques for defining requirements and technical data necessary for the acquisition of logistic support throughout the life cycle of weapon systems and equipment. Included in this area are: (1) maintenance planning to assure achievement of system readiness and maintenance of the operational capability of systems and equipment; (2) manpower and personnel requirements and procedures; (3) supply support requirements to ensure that spares and repair parts are provided to meet automated system requirements; (4) training requirements for operation and maintenance of the specific systems and equipment; and (5) integration of acquisition planning for other logistic elements, as defined in DoD Directive 5000.39 and MIL-STD-1388-1A, essential to the support of the weapon system or equipment.</p>
INST	<p>Information Standards and Technology</p> <p>This AREA encompasses report standards, data exchange format standards, graphic, and imagery constructs. It includes the structure, values, definition, and representation of data that gives it meaning, enhances information sharing and exchange, and facilitates effective decision-making based on a DoD-wide commonality of representation and understanding of specific bits of information. Standard structures and formats include character and bit oriented syntax as well as graphics, imagery, and geographical constructs. These information structure are derived from the combination and use of standard data elements and codes to convey precise meaning.</p>

<u>AREA</u>	<u>TITLE (AREA Description Below Title)</u>
IPSC	<p>Information Processing Standards for Computers</p> <p>This AREA relates to computers and data processing devices, equipments and systems including, but not limited to, character recognition types; input/output media, formats and labels; programming languages; computer documentation; flowcharts and terminology; character codes; data communications and input/output interfaces.</p>
MCCR	<p>Mission Critical Computer Resources</p> <p>This AREA encompasses standards used in mission critical defense computer systems, related software (development environments, support software, application programs, firmware, and data bases) and associated documentation.</p>
MC GT	<p>Mapping, Charting and Geodesy Technology</p> <p>This AREA encompasses standardization documents, procedures, methods and techniques for mapping, charting and geodesy (MC&amp;G) technology and incorporates the technologies of geographic information, photogrammetry, cartography, terrain analysis, geodetic surveying, satellite geodesy, remote sensing, and map reproduction. This includes graphic and digital MC&amp;G aeronautical, hydrographic, topographic and target product-oriented standards (e.g., products, features, spatial data exchange, media and data quality), MC&amp;G user-oriented standards (e.g., exploitation algorithms and computer graphics) remote sensing systems standards, and MC&amp;G sustainment standards, procedures, methods and techniques (e.g., value-added algorithms, electronic communications, equipment, production, training, security, and distribution). Also included in this AREA are MC&amp;G planning and requirements standards and procedures to assure achievement of forces and weapon system readiness and interoperability.</p>
MECA	<p>Metal Castings</p> <p>This AREA covers metal castings produced by a variety of processes and techniques such as: green and dry mold, shell, core, permanent and ceramic mold; expandable pattern; centrifugal; continuous and iron die casting.</p>
MFFP	<p>Metal Finishes and Finishing Processes and Procedures</p> <p>This AREA relates to metal finishes and processes such as metallic coatings, anodic coatings, and chemical treatments and coatings. It also covers corrosion and corrosion control of metals.</p>
MISC	<p>Miscellaneous</p> <p>This AREA is reserved for those standardization documents that cannot, by definition, be assigned to a currently established Federal Supply Class, or standardization area.</p>
MNTY	<p>Maintainability</p> <p>This AREA covers equipment design characteristics related to the ease, economy, and speed of maintenance and repair. Design criteria, analysis methods, prediction, verification, demonstration and evaluation are subdivisions.</p>

<u>AREA</u>	<u>TITLE (AREA Description Below Title)</u>
NDTI	<p>Nondestructive Testing and Inspection</p> <p>This AREA relates to nondestructive testing (NDT) methods of inspection, qualification of NDT equipment and personnel, and reference standards for acceptance inspection. It excludes NDT equipment and accessories.</p>
NUOR	<p>Nuclear Ordnance</p> <p>This AREA includes standardization documents covering engineering criteria, practices, requirements and items (not properly included in Federal Supply Group 11) unique to nuclear ordnance, due to design, security, quality, storage, safety or transportability requirements.</p>
PACK	<p>Packing, Packaging, Preservation and Transportability</p> <p>This AREA includes packaging, packing and preservation of defense materiel. Transportability is included whenever transportation requirements are a part of a packaging systems document.</p>
QCIC	<p>Quality Control/Assurance and Inspection</p> <p>This AREA covers general methods and techniques intended to provide assurance that material, data, supplies and services conform to established technical requirements and achieve satisfactory performance.</p>
RELI	<p>Reliability</p> <p>This AREA relates to reliability program requirements, reliability analysis and prediction, reliability testing/ sampling and reliability/design application.</p>
SAFT	<p>System Safety</p> <p>This AREA related to: (1) safety design, test and demonstration requirements for military systems; equipments, facilities and personnel interfaces; (2) safety procedures; (3) joint area safety requirements and (4) system safety engineering program requirements and plans. Excluded are standards relating to explosive and fuze safety, environmental and occupational safety, and specific safety equipments.</p>
SDMP	<p>Standardization and Data Management Programs</p> <p>This AREA has been established primarily to facilitate the indexing and distribution of selected Standardization and Data Management program wide documents that do not specifically belong in any other Federal Supply Class or AREA. In addition to specifications, standards, and handbooks, SDMP includes the "SD" document series and the DoD manuals governing the programs.</p>
SOLD	<p>Soldering</p> <p>This AREA covers the processes for making metallic junctions in which the surfaces are joined under elevated temperatures by the surface wetting and subsequent coalescence of liquid solder having a much lower melting point than any of the metals being joined (generally below 426°C; 800°F). Requirements, procedures and inspection criteria for soldering processes ranging from general fabrication of non-electrical assemblies to soldering electrical and electronic connections are included.</p>

<u>AREA</u>	<u>TITLE (AREA Description Below Title)</u>
TCSS	<p>Telecommunications System Standards</p> <p>This AREA establishes uniform engineering criteria for terminal equipment, transmission equipment, and switching equipment to ensure interoperability within military telecommunications systems and, in many cases, interoperability with federal systems and common carriers. Activities within the TCSS AREA include participation in federal, commercial, and international standard forums, as well as development of military-unique telecommunications standards and handbooks. The TCSS AREA includes communications systems in support of computer data transfer, as well as the more conventional telecommunications services such as voice, video, and facsimile. The TCSS AREA applies to services provided over a broad spectrum of transmission media and under widely varying environmental and physical conditions.</p>
THDS	<p>Screw Threads</p> <p>This AREA establishes standards for screw threads and other items associated with the purchase and/or use of interchangeable threaded parts, including basic requirements for assembly, interchangeability, strengths and installation/removal torques.</p>
THJM	<p>Thermal Joining of Metals</p> <p>This AREA is concerned with the thermal joining of metals processes (welding and brazing), but excludes soft (low temperature) soldering (see SOLD AREA). It includes low- temperature brazing (also known as hard soldering or silver soldering). It does not include equipment or accessories.</p>
TMSS	<p>Technical Manual Specifications and Standards</p> <p>This AREA covers the requirements for technical manual preparation, including those requirements to facilitate TM deliverables in digital format. It addresses the technical content and format of weapon systems, weapon systems components, and support equipment technical manuals used for operation, maintenance and repair of systems and equipment. Document Type Definitions (DTDs) and Format Output Specification Instance (FOSI) developed as appendices to the TMSS documents are also covered by this standardization AREA, as well as administrative and management data such as status reports, validation plans and schedules relating to technical manuals.</p>

- NOTES:
1. International Standardization documents listed in the Department of Defense Index of Specifications and Standards (DODISS) are not available to private industry on a subscription basis. These documents will be issued to private industry on an "as needed" bases from shelf stock. These documents are identified in the DODISS as AREAS ISDD, ISDA, ISDN and ISDF under the FSC column heading.
  2. AREA TELE, Federal Telecommunications Standards, is used for DODISS indexing purposes only. It is not a DoD standardization AREA assignment.
  3. SLHC and TCTS have been merged into one area - TCSS.

**LISTING OF KEY ACQUISITION STANDARDIZATION DOCUMENTS  
AND THEIR COGNIZANT OSD TECHNICAL REVIEW OFFICES**

DoD 4120.3-M, "Defense Standardization Program Policies and Procedures," dated July 1993, requires the approval of key acquisition standardization documents and all changes to these documents by the Chairman of the Defense Standards Improvement Council. The following documents have been designated as key acquisition standardization documents, and assigned the following OSD offices to serve as technical review offices. Preparing activities must involve these OSD offices in the development, coordination, and approval processes for these documents. For a detailed explanation of the approval process for key acquisition standardization documents, see Appendix G to DoD 4120.3-M.

#### LISTING OF PROHIBITED REFERENCES IN STANDARDIZATION DOCUMENTS

The following is a list of documents that shall not be cited as requirements in military or federal specifications, standards, bulletins, or commercial item descriptions. This list is not all-inclusive but is intended to demonstrate, by example, the types of inappropriate references.

MIL-HDBK-470	Maintainability Program for Systems and Equipment
MIL-STD-781	Reliability Testing for Engineering Development, Qualification, and Production
MIL-STD-785	Reliability Program for Systems and Equipment Development and Production
MIL-STD-882	System Safety Program Requirements
MIL-STD-965	Parts Control Program
MIL-STD-973	Configuration Management
MIL-STD-981	Design, Manufacturing and Quality Standards for Custom Electromagnetic Devices for Space Applications
MIL-STD-1388	Logistics Support Analysis
MIL-STD-1465	Configuration Management of Armaments, Munitions, and Chemical Production Base Modernization
MIL-STD-1482	Human Engineering Design Criteria for Military Systems Equipment and Facilities
MIL-STD-1530	Aircraft Structural Integrity Program, Airplane Requirements
MIL-STD-1541	Electromagnetic Compatibility Requirements for Space Systems
MIL-STD-1543	Reliability Program Requirements for Space and Launch Vehicles
MIL-STD-1546	Parts, Materials, and Processes Control Program for Space and Launch Vehicles
MIL-STD-1556	Government/Industry Data Exchange Program Contractor Participation Requirements
MIL-STD-1568	Materials and Processes for Corrosion Prevention and Control in Aerospace Weapons Systems
MIL-STD-1574	System Safety Program for Space and Missile Systems
MIL-STD-1625	Safety Certification Program for Drydocking Facilities and Shipbuilding Ways for U.S. Navy Ships

MIL-STD-1634	Module Descriptions for the Standards Electronic Modules Program
MIL-STD-1686	Electrostatic Discharge Control Program for Protection of Electrical and Electronic Parts, Assemblies and Equipment
DOD-STD-1700	Data Management Program
MIL-STD-1771	Value Engineering Program Requirements
MIL-STD-1783	Engine Structural Integrity Program
MIL-STD-1785	System Security Engineering Program Management Requirements
MIL-STD-1794	Human Factors Engineering Program for Intercontinental Ballistic Missile Systems
MIL-STD-1798	Mechanical Equipment and Subsystems Integrity Program
MIL-STD-1799	Survivability, Aeronautical Systems
MIL-STD-1836	Standardization & Control Program for Parts, Materials & Processes Used in Inter-Continental Ballistic Missile Weapon Systems
MIL-STD-2067	Aircrew Automated Escape Systems Reliability and Maintainability (R/M) Program, Requirements For
MIL-STD-2069	Requirements for Aircraft Nonnuclear Survivability Program
MIL-STD-2093	Reliability Procedures for Production of Guidance and Control Section for Guided Missile AIM/RIM/7
DOD-STD-2107	Product Assurance Program Requirements for Contractors
MIL-STD-2164	Environmental Stress Screening Process for Electronic Equipment
MIL-STD-2165	Testability Program for Systems and Equipments
MIL-STD-2184	Procedures for Installation, Inspection, Maintenance and Repair of Absorber, Reflector and Decoupler
MIL-STD-2186	Real-Time Outfitting Management Information System, General Requirements for
MIL-STD-40000	Parts Control Program for Nondevelopmental Items (NDIS)
MIL-STD-6870	Inspection Program Requirements, Nondestructive, for Aircraft and Missile Materials and Parts
MIL-E-8970	Engine and Related Propulsion and Power Equipment, Aircraft, Acceptance Tests of, Sampling Plan for, Statistical
MIL-Q-9858	Quality Program Requirements
MIL-O-13830	Optical Component for Fire Control Instruments, General Specification Governing the Manufacture, Assembly and Inspection of
MIL-F-13926	Fire Control Material, Manufacture and Inspection, General Specification for
MIL-S-28825	Switchboard, Audio, Design, Test and Manufacture of

MIL-P-29005	Publications, Planned Maintenance System, for Training Devices
MIL-I-45208	Inspections Systems Requirements
MIL-P-46195	Program Requirements, Nondestructive Inspection, for Weapon Systems, Subsystems, Parts and Materials
ASQC-Q90	Quality Management and Quality Assurance Standards - Guidelines for Selection and Use
ASQC-Q91	Quality Systems - Model for Quality Assurance in Design/Development, Production, Installation and Servicing
ASQC-Q92	Quality Systems - Model for Quality Assurance in Production and Installation
ASQC-Q94	Quality Management and Quality Systems Elements - Guidelines
AWI-QSGSQCP	Guide Specifications and Quality Certification Program, Architectural Woodwork Quality Standards
ISO-9000	Guidelines for Selection and Use - Quality Management and Quality Assurance Standards
ISO-9001	Systems, Quality - Models for Quality Assurance in Design/Development, Production, Installation and Servicing
ISO-9002	Systems, Quality - Model for Quality Assurance and Installation
ISO-9004	Guidelines - Quality Management and Quality System Elements

# PART 1

## STANDARDIZATION MANAGEMENT ACTIVITY (SMA) LIST

This index shows DoD SMAs and other interested organizations that participate in the conduct of the Defense Standardization Program. These activities function as lead standardization, participating, review, and user activities or departmental custodians as defined DoD 4120.3-M, "Defense Standardization Program Policies and Procedures." To facilitate use of Part 3 of this directory, this part is primarily sectionalized by Military Department, Defense Agency, and other elements of the Federal Government.

## **PART 2**

### **STANDARDIZATION ASSIGNMENTS**

This part assigns the Lead Standardization Activities and Participating Activities for Standardization Areas, Federal Supply Groups (FSG), and Federal Supply Classes (FSC). It also identifies the item reduction activity for each FSC. See DoD 4120.3-M, "Defense Standardization Program Policies and Procedures" for and explanation of assignment functions.

### **PART 3**

#### **POINTS OF CONTACT**

This part provides the names, addresses, and phone numbers for standardization points of contact in the DoD, civilian agencies, and non-government standards bodies. In addition, this part identifies the Standardization Areas and FSCs in which DoD SMAs and civilian agencies have an interest and should review standardization documents and item reduction studies. See DoD 4120.3-M, "Defense Standardization Program Policies and Procedures" for the procedures and extent of document coordination.

## **SECTION I**

### **OFFICE OF THE SECRETARY OF DEFENSE**

Information listed should be current at the time of publication. All changes, additions or deletions of the activities' addresses, telephone numbers, points of contact (POCs) and other data for this section should be submitted, as mark-up copy, to the address listed herein for "SO."

**OASD for Economic Security, Acquisition Practices Directorate  
Standardization Code:**

- \* 1. Mr. Walter B. Bergmann, II  
Director, Acquisition Practices  
Attn: DUSD(IA&I)/AP  
Room 3B253, Pentagon  
Washington, DC 20301-3330

NOTES: Responsible for the Defense Standardization Program (DSP);  
Chairman of the Defense Standards Improvement Council  
(DSIC). For questions on DSP Policy and Procedures, please  
call the Standardization Program Division below.

DSN: 225-7458  
PHONE: 703-695-7458  
FAX: 703-693-6990

**Director, CALS and EDI  
Standardization Code: DO**

- \* 1. Director, CALS and EDI  
Department of Defense  
5203 Leesburg Pike, Suite 1609  
Falls Church, VA 22041

NOTES: Provides overall policy, planning, management oversight and  
administration of CALS and EDI standardization activities.  
Responsible for Data Item Descriptions, DOD-STD-963, DOD  
5010.12-L (AMSDL) and DOD 5010.12-M, Technical Data  
Program. Provides management oversight of CALS  
standardization activities in coordination with DISA, NIST,  
CALS Industry Steering Group, NATO CALS Management Board  
and NATO Standardization Organization.

- \* 1. Commander  
US Army Materiel Command  
Attn: AMCICP-AA  
5001 Eisenhower Avenue  
Alexandria, VA 22333-0001

NOTES: Manages coordination of NATO STANAGs and Allied  
Publications, ABCA Quadrapartite Standardization Agreements  
(QSTAGs), and ASCC Air Standards for the U.S. Army.  
Manages administration of NATO MAS (ARMY), ("2000" Series  
STANAGs) and ABCA Armies Standardization Programs. Manages  
Coordination of US Army positions on NATO MAS (NAVY) ("1000"  
Series STANAGs), MAS (AIR) ("3000" Series STANAGs), CNAD  
("4000" Series STANAGs), IMS ("5000" Series STANAGs), and  
"6000" and "7000" Series STANAGs. Maintains the U.S. Army  
Office of Records for International Standardization  
Agreements. Responsible for input and maintenance of Army  
records in the "International Standardization Agreements  
Database". Serves as Army action agent for the DoD  
International Military Standardization Working Group and  
for the ABCA Program. Operates and staffs the U.S.  
National Standardization Office (NSO) for ABCA--Distributes  
newly-ratified ABCA QSTAGs.

Battle Creek, MI 49017-3094

NOTES: Responsible for administration of the DSP for the five Air  
Logistics Center (ALCs) Codes 70, 71, 80, 82 and 84.  
Activity (99) administratively approves all standardization  
documents prepared by the ALCs. Activity (99) acts as  
agent activity on selected documents for the ALCs.  
Activity (99) reviews all proposed item reduction studies  
in which the Air Force has interest. All matters pertaining  
to overall policy, planning and administration of the  
standardization program for (99).

NOTES: Acts as Preparing Activity where "DLA-CT" is shown in the  
FSC listing of the DODISS. Initiates projects, prepares,  
coordinates and maintains standardization documents.  
Interacts with all technical matters pertaining to  
preparing activity responsibilities (preparation,  
coordination, resolution of comments, and approval of  
standardization documents). Involved in all matters  
pertaining to specification preparation, overage document  
review, accomplishment data, item reduction studies, and  
commercial item descriptions (CIDS). Responsible for  
transmittal sheets and reports on standardization projects  
for the SD-4. Monitor (DD Form 1585) and DODISS and ASSIST  
program information.

National Imagery and Mapping Agency (DEPSO)  
Attn: Danny Gleason, Acting  
Mail D86, Attn: SEIS  
4600 Sangamore Road  
Bethesda, MD 20816-5003

NOTES: NIMA provides overall program guidance and management for  
all DoD mapping, charting, and geodesy (MC&G) resources and  
activities. the agency provides the US principal  
representative the NATO Interservice Geographic Working  
Party (IGEOWP) and develops the US position on proposed  
new/revised NATO Allied Standardization Agreements  
(STANAGs) dealing with (MC&G) and related matters. DMA is  
the coordinating activity for NATO Allied Publications  
under the purview of the IGEOWP. The agency has similar  
responsibilities under the ABCA Quadrapartite  
Standardization Program and chairs the ABCA Special Working  
Party/Mapping, Charting and Geodesy (SWP/MC&G).

## **SECTION VIII**

### **INTERNATIONAL STANDARDIZATION**

The following points of contact are listed in their appropriate sections of Part 3, but are presented here as a quick reference for International Standardization related matters.

**Standardization Program Division**  
**Standardization Code: SO**

1. Chief, Standardization Program Division  
5203 Leesburg Pike Suite 1403  
Falls Church, VA 22041-3466

NOTES: For matters concerning DoD 4120.3-M, MIL-STD-961, MIL-STD-962, the Home Page on the Internet, DODISS, NDI/Commercial Acquisition; Standardization Training, Item Reduction, Metrication, Acquisition Streamlining, Standardization Automation, Standardization Newsletter, Qualification and QPLs, SD-1 through SD-15, and programs involving standardization documents sponsored by international standardization bodies and the Defense Treaty Alliance organizations (e.g., STANAGS, QSTAGS, AQAPs, AIRSTDs, IEC, ISO, etc.).

POC: Mr. Andrew Certo  
DSN: 761-9340/9343  
PHONE: 703-681-9340/9343  
DSN FAX: 761-7622  
FAX: 703-681-7622  
E-MAIL: irelanjs@acq.osd.mil  
HOME PAGE: <http://www.acq.osd.mil/es/std/stdhome.html>

- \* 1. Commander  
US Army Materiel Command  
Attn: AMCICP-AA  
5001 Eisenhower Avenue  
Alexandria, VA 22333-0001

NOTES: Manages coordination of NATO STANAGs and Allied Publications, ABCA Quadrapartite Standardization Agreements (QSTAGs), and ASCC Air Standards for the U.S. Army. Manages administration of NATO MAS (ARMY), ("2000" Series STANAGs) and ABCA Armies Standardization Programs. Manages Coordination of US Army positions on NATO MAS (NAVY) ("1000" Series STANAGs), MAS (AIR) ("3000" Series STANAGs), CNAD ("4000" Series STANAGs), IMS ("5000" Series STANAGs), and "6000" and "7000" Series STANAGs. Maintains the U.S. Army Office of Records for International Standardization Agreements. Responsible for input and maintenance of Army records in the "International Standardization Agreements Database". Serves as Army action agent for the DoD International Military Standardization Working Group and for the ABCA Program. Operates and staffs the U.S. National Standardization Office (NSO) for ABCA--Distributes newly-ratified ABCA QSTAGs.

## SECTION IX

### NON-GOVERNMENT STANDARDS BODIES

Information listed should be current at the time of publication. All changes, additions, or deletions of the activities' addresses, telephone numbers, points of contact (POCs) and other data for this section should be submitted, as mark-up copy, to the address previously listed for "SO" in Section 1.

The Non-Government Standards Bodies (NGSBs) listed have agreed to make copies of their standards available to DoD activities for adoption coordination as indicated by one of the distribution codes explained below. Listing of NGSBs in this section is provided for information only. It does not:

- a. imply that any contractual arrangements exist between the DoD and NGSB.
- b. imply any endorsement by the DoD of standards prepared by these NGSB's.
- c. limit DoD participation or adoption activities to only those NGSBs listed.

NOTE: DoD Standardization Management Activities (SMAs) should exercise care to avoid infringement of any copyrights. An explanation of the distribution codes used in this section follows:

#### DISTRIBUTION CODES TABLE

<u>CODE</u>	<u>EXPLANATION</u>
J	Will provide 12 free copies of documents and gXrants royalty free license to reproduce for DoD coordination only.
K	Will provide 12 free copies of documents for DoD coordination review purposes only. Communicate with point of contact (POC) for special situations.
L	Will provide one free copy, or as shown within parentheses (), of any document and grants royalty free license to reproduce for DoD coordination review purposes only.
M	Will provide number of copies shown in parentheses () free for DoD coordination review purposes only. Communicate with point of contact for special situations.
N	Will not grant a royalty free license to reproduce.
P	Will not provide free copies of documents.
Q	Will lend 12 copies of documents for DoD coordination review purposes. Communicate with point of contact.
R	See text below address.
